The band started fund raising Nov. 15 and in 22 weeks raised all but \$4,000 of the needed funds for the European tour this summer.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

Kenneth Hertel, manager of Carlton Implement Company, passes along the following information to those of you with 1975 autos or pickups that might be driving in dry pastures or freshly combined fields this summer.

The following quote from the Doane's Agricultural Report:

"If you have a 1975 auto or pickup equipped with a catalytic converter, you should be careful this summer when operating in dry pastures or freshly combined fields. The reason — these converters attain high temperatures, especially if the engine is under load.

"Gulf Oil Corporation tested two production model cars with 351 and 400 cubic inch catalytic converter equipped engines. Converter surface temperatures as high as 990 degrees were reached under the most severe test conditions — a hill climb at full throttle. At that temperature the engineers felt contact could ignite dry grass, agricultural dusts and other flammable substances. Converter surface reached temperatures as high as 660 degrees under normal operating conditions. While perhaps not high enough to ignite grass or weeds, there could be some fire danger in a stubble field."

Dalton Wood, publisher of The Slaton Slatonite, has come up with a new calendar that might better fit the needs of modern living.

First off, he would do away with all this confusion about some months being 30 days, some 31 and one being whacked off at 28. All months under his plan would be exactly four weeks, but there would be just 11 months and each week should be eight days. (Right here we have a problem because I would prefer a shorter week but maybe we could work this into his plan later.)

His eight day week would be set up thusly: Sunday, Twoday, Threeday, Meeting Day, Fourday,

House Subcommittee, chaired by Rep. W. S. (Bill) Healy of Paducah, is studying House Bill 1948 which would create a Jones County District Court.

The Bill, sponsored by State Rep. Elmer Martin, was handed to subcommittee by Judicial Affairs Committee Chairman Tim Von Dohlen of Goliad after a full committee hearing last week in Austin.

Serving with Chairman Healy on the subcommittee are Reps. Gene Jones of Houston, Bill Clark of Tyler, Perry A. Tanner Jr. of Livingston, and Lynn Nabors of Brownwood.

A delegation from Anson, Hamlin and Stamford attended the meeting of the Judicial Affairs Committee to urge the passage of the court proposal.

Rummage Sale Cuts Prices

Mrs. C. L. Howard, chairman of the Hamlin High School Stage Band rummage sale, has announced that prices are slashed for the sale this week.

Woolen materials for quilts and rugs, "brand new" sports clothes and a color television set are among the items for sale.

The stage band fund for the European tour has reached \$26,000. The goal is \$30,000 for the 22-member band to participate in a 16-day tour of Europe with International Jazz Tours, Inc.

House Bill 1948 would remove Jones County from the 104th District Court, which is dominated by Abilene, and establish a new 241st District Court composed solely of Jones County.

The bill proposes to give the new court jurisdiction in eminent domain cases plus the original and appellate jurisdiction in both civil and criminal matters previously placed in the County Court. Remaining with the County Court would be the general jurisdiction of probate matters.

Pre-School Visitation Day Planned Here Tuesday

The annual pre-school visitation day will be held here Tuesday for all children who will be in the kindergarten this fall.

Each child attending the visitation day is asked to be at the primary building by 8:30 a.m. Lists will be posted on each kindergarten and first grade door and the child will visit the room where he finds his name.

The children will need to

bring 60 cents to eat lunch in the school cafeteria. All visiting pre-school children will be dismissed promptly at 1 p.m.

There are several children who will be enrolled in kindergarten next year already enrolled in various classes in the school. These children will attend their regular classes and will not attend pre-school day.

Parents of enrolling kindergarten children are welcome to visit school and eat lunch on Tuesday. The price for an adult meal is 80 cents and the lunch room begins serving at 10:30.

Each enrolling kindergarten student will receive a letter showing the completeness of his

enrollment. It is hoped that each parent will read this letter carefully and bring with them on May 6 the records needed to complete their child's enrollment, as no child can enter a classroom on the first day of school without complete records.

For complete records, a child must have a state birth certificate, (a hospital or baptismal certificate cannot be used), the three-series shots for diphtheria-whooping cough-tetanus, the three-dose series for polio, one Rubeola (measles), and one Rubella (three-day measles) and a social security number.

Pre-school day activities will include "Old McDonald," a program put on by the kindergarten music class under the direction of Miss Reba Jackson, school music teacher.

The Parent-Teacher Association members will assist the school personnel with registration and help the teachers in the class rooms.

Coach Merket Takes Jim Ned Post

Russell Merket, an assistant coach here who has helped guide the Pipers to three straight district football championships, has been named head football coach at Jim Ned High School.

Merket replaces Larry Aldridge, who recently accepted a similar position at Abernathy after guiding Jim Ned to a 13-1 record last fall. Merket assumes the top duties at a school that reached the state's Class A semifinals last fall.

Merket came to Hamlin with David Bonds in the summer of 1972 and since then the Pipers have ruled District 6-AA.

He will assume his new position shortly after the spring semester ends in May. He plans to attend summer school this summer and the family will move in July.

Track Team Misses Out At Regional

The Piper track team could manage only 16 points in the Class AA Regional meet held Friday and Saturday in Odessa. The two-time state champion team scored two fourth places and one fifth in the meet.

Running without the talented Johnny Jones, who had to drop out of the District meet because of a leg injury, the Piper sprint relay team of Mac Lee, Robert Phariss, Oscar Marshall and Delbert Thompson took fourth place with a time of 43.7.

The Piper mile relay team

placed fifth with a time of 3:27.2. Running on the team were Thompson, Luke Reynolds, Steve Evans and Marshall.

Phariss placed fourth in the pole vault with a 13'0".

For the first time in four years the Pipers failed to qualify an individual or a team to the state meet.

Thompson, Marshall and Paul Reynolds qualified for the Regional meet in individual events but failed to make the finals. Thompson qualified in the 440, Marshall in the 100 and Reynolds in the high hurdles.

2 Charged In Burglary

Two Sweetwater men have been charged with the April 16 burglary of C. L. Howard Drug Store, according to Police Chief Ed Wheat. A number of drugs were reportedly stolen.

Named in the complaints filed before Justice of the Peace John Barnett were Robert Lee Anz Jr., 20 and Edward Ornelas, 18, both of Sweetwater. They were arrested in Sweetwater Friday.

Chief Wheat said Monday that more than a thousand pills (barbiturates and amphetamine capsules) were recovered in the old KXOX Radio station during his investigation.

Working with Chief Gerald Byrd of Sweetwater, Chief Wheat said Anz was being held in Sweetwater without bond. He and his wife are reportedly being held for attempted robbery on a Roscoe drug store and his assault on a police officer in Roscoe as well as Sweetwater burglaries.

Entrance to the local drug store was gained through a side door after the glass was knocked out, the Chief said. He reported that Ornelas was driver of the car. Ornelas was released on \$25,000 bond.

CAPITAL HIGHLIGHTS—

Utility Bill Draws Stiff Criticism

AUSTIN—A utilities regulatory bill finally surfaced in the Senate but immediately ran into stiff criticism after early indications it might pass promptly.

The bill (SB 42) remained on high center while sponsors tried to satisfy complaints with amendments.

A Texas Coalition for Utility Regulation spokesman termed the Senate bill "a monopoly's dream and a consumer's nightmare."

Some charged it would mean an automatic rate increase for most utilities because of provisions of the rating formula. Lt. Gov. Bill Hobby termed this concern a "misapprehension."

The bill would set up a three-member appointed Public Utility Commission with jurisdiction over intrastate telephone rates.

Cities would retain jurisdiction over electric and gas rates. The Utilities Commission would have jurisdiction over electric rates outside city limits, while the Railroad Commission would have jurisdiction over gas rates outside municipal boundaries.

Appeals from electric rate decisions by cities would go to the Utilities Commission. Appeals in gas rate cases would go to the Railroad Commission.

SPEED BILL KILLED

The Senate sent the so-called "no-pain" speed bill to a painful end.

Senators voted down 10-19 the House - passed measure which sought to limit fines for speeding violations under 70 mph to \$25 (including court costs). The original bill also would have prevented 55-70 mph speeding violations from being entered in drivers' records for insurance premium enhancement and license suspension purposes.

The legislature earlier extended the present 55 mph speed limit to conform with federal energy - saving requirements. Enforcement apparently will be "monitored" by the federal government.

SUPERINTENDENTS

AXED

Thirty-nine county school superintendents would receive no more state aid under a bill passed by the Senate and returned to the House.

The measure (HB 226) would take away state sup-

port for superintendents in Jasper, Newton, Sabine, Anderson, Atascosa, Austin, Bexar, Brazos, Burleson, Camp, Crosby, Delta, Donley, Eastland, Gonzales, Gregg, Hardin, Harrison, Hunt, Jack, Jones, Karnes, LaSalle, Leon, Liberty, Medina, Orange, Red River, Robertson, Rusk, San Augustine, San Jacinto, Starr, Tarrant, Tyler, Upshur, Walker, Waller and Washington Counties.

COURTS SPEAK

Third Court of Civil Appeals held a lawsuit claiming Secretary of State Mark White Jr. helped dissolve a corporation in an improper manner can be tried in Travis County.

A Nueces County man should be released from custody for contempt, since he had a right not to answer a question put to him at a deposition taking, the Texas Supreme Court held.

A Dallas County black won a new trial on rape charges. The Court of Criminal Appeals reversed the case, on grounds the trial judge would not allow the defendant's attorneys to question prospective jurors about racial prejudice.

AG OPINIONS

Alien children are entitled to attend public schools in their home district, regard-

less of whether they are legally or illegally within the U.S., Atty. Gen. John Hill held.

In other recent opinions, Hill held:

There is no difference in rights reinstated by a pardon or a restoration to citizenship. But a restoration to citizenship might not satisfy requirement that a pardon and a proof of innocence are necessary for an award of compensation to a wrongfully-convicted person.

Camping families don't have the easy times of it today, as we did when we were children of the Great Depression, trying to grow old enough to spell words like Establishment and Adult so we could take a better stand against them. You can't buck something you can't spell.

Today the camper tries to erect the family tent by inserting pole B into slot Z, pulling on line A, and the whole thing tumbles down around his red ears. Back then we just rolled up in a blanket, put our head on a boot and went to sleep.

Today's camping family has two tons of equipment plus cookers, smokers, grills, roasters, charcoal and enough fuel to blow up a block of New York City if the can springs a leak. During the GD we built a small fire we could get warm and see by, turn the starboard side to dry clothes, and lots of coals to cook a crappie on a flat board, or a squirrel on a green limb. Coffee was made in a bucket, with water from the river, and a green stick on top to keep it from boiling over.

Those who take Mama and the kids to a lake today sit on their folding chairs at their folding table and might look out across the lake on a weekend if it weren't for the family from Baton Rouge blocking the view and reaching over to borrow your salt shaker. In earlier days we'd stay five days and nights on the river (because any less time wasn't worth it), and never see anything alive except the fish, the rabbits, a stray deer now and then, but when we looked at the big cottonwood and the fox squirrels eating buds, and the rocks drippy with cold water, and the soft, rich humus earth trying to surround the old log where the mushrooms grew, we'd see a lot of God in the air, and we didn't see people til we got back to town.

For camp dinner now Mama is undecided between the pork chops, the frozen ocean perch or the little sirloins from the supermarket. Back 40 years we had two choices in our meat; we either ate it or went hungry.

We didn't need a lot of money because you couldn't buy good health anyway, but at least with what little we had we could afford to get sick, and the average person could go to the doctor. If there was those who couldn't, then the doctor would come to them.

Don't misunderstand. What we have in our state today is the best the agencies and the outdoors can offer. Our 4 million people have swelled to 12 million. Space is

precious, but some of the space makes me suffer for the occupants. Especially the noise pollution. Camps today can't seem to get along without the transistor blaring some ugly tune by the Five Disasters but we had music of a different sort. Mocking birds waking the day, frogs yelling at the night, the coyote over the hill, the fussy squirrel barking at his friends, and windsongs thru the tree.

NEWS AND VIEWS . . .

And What Have You

— Continued from page One

Fiveday, Sixday and Saturday. He thinks this would be a nice eight-day week, renaming all except Sunday and Saturday, which he likes too well to do away with. It does away with Monday, which is useless, and throws in that extra day for meetings. It would be unlawful to have any kind of meeting involving anything other than recreational activities on any day except Meeting Day. "Those of us who look gloomily at our weekly appointment list and discover every night is taken up for the next two weeks have long realized the need for a day every week to just have meetings," Wood writes.

Nobody would work that day; the whole day would be taken up by meetings, and no meeting would be permitted to go longer than an hour and a half.

The months under his plan would be Oneuary, Twouary, and so on, and 11 of them would mean 352 days per year. Then there would be a 13-day Nothing Period in which nobody would do anything (already we have people all around us training for this time). This would make the calendar come out right at 365 days.

He says we could possibly have the New Year holiday at this time, along with all the football bowl games. We could even have a new one, call the Nothing Bowl, he says.

Political activity also could be confined to the Nothing Period, and any mention of politics at any other time during the year would be punishable by death or by three hours of listening to Alice Cooper records, according to the choice of the guilty party.

We are a little slow in making a comment on how nice the south edge of town looks now that the old drive-in theatre and the courts have been torn down. The old drive-in had gotten in such bad shape that everyone in town apologized for it. The elimination of the eyesore helps the looks of the whole town in the eyes of passing motorists.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Three Attend Farmers Union Board Meeting

Mr. and Mrs. Gerald Brown and John Scarborough, all of Hamlin, recently attended the regular Spring Board Meeting of Texas Farmers Union in Waco. Gerald Brown is Jones County president and Scarborough is first vice president.

The farm leaders reviewed and approved reports on their business activities and services. They also adopted several resolutions on state and national legislative issues affecting farmers, ranchers and rural people. In a carefully worded resolution that pointed out the

shortcomings in the new federal price support and target price legislation, the farm group urged President Ford to sign the legislation. "Although the proposed changes in the farm program are totally inadequate to meet the needs of agriculture and to assure the consumer

an adequate supply of food and fiber, we recognize that this is the best that we can expect out of this session of Congress, and until a comprehensive new farm program is passed, we urge President Ford to sign the farm bill. If the President fails to do this, we urge

Congress to override his veto," the Farmers Union Board stated.

The farm organization went on record in support of intrastate price regulation of natural gas, a pipeline gas tax, a strong utilities commission including provisions for territorial integrity to rural electric cooperatives, regulation of corporation farming, a state indemnity

payment for brucellosis losses and lower ad valorem taxes on agricultural land. The farm leaders expressed their disagreement with the Governor's school tax program, because "it places an undue burden of the school tax load on the farmer and rancher."

The Farmers Union Board postponed action on several federal and state issues. The

county Farmers Union presidents agreed to poll their members to determine whether or not there was local support for a national check-off program for the research and promotion of beef. The question of support for the new state constitution was also tabled pending the determination of grass-roots support.

All-Weather 78

Goodyear's new All-Weather 78 is built with polyester cord that's first tempered in an exclusive Goodyear process to set the cord at optimum strength and resilience. The wide 78-series tread is "reverse molded," a technique borrowed from race tire production. In reverse molding, the contour of the tread surface is slightly concave as it

comes from the mold - so that when the tire is inflated, the tread makes full, flat contact with the road. And the rib-type tread design is well grooved, with plenty of traction edges to provide decisive grip. In every detail, this new All-Weather 78 gives you honest quality, at a price that's in step with the time.

OLD HOUSE to be torn down or moved. Phone 576-3966.

The desire and outright struggle for independence is a natural consequence of youth, according to Neco Wilburn, Jones County Extension Agent.

"This quest for independence usually peaks during high school years. The adolescent is trying to be free from adult dominance and take what he thinks is his rightful and logical place in society," she explained.

Parental control over an adolescent is the greatest block in the normal course of leaving home.

When youth acquire the ability to take their place as mature individuals in the economic and social world, they are ready to be free from parental control.

"Parents play a vital role in a youth's preparation for adulthood. In early childhood, a youth must be dependent upon parents—a child is unable to manage his affairs socially, emotionally, economically or intelligently."

When a youth develops successfully in these four areas, parents must be prepared to let the child go. This "letting go" isn't easy

because it may make some parents feel a loss in importance, Mrs. Wilburn said.

New Arrival

Mr. and Mrs. Noel W. Petre Jr. of Abilene are parents of a girl, Tresleigh Paige, 9 lbs. 2 oz., born April 23 at 6:35 p.m. The couple has a son, Trey, 6. Maternal grandparents are Mr. and Mrs. E. C. Feagan Jr. Paternal grandparents are Mr. and Mrs. Noel W. Petre of Abilene.

"Parental behavior should lead to independence, self-sufficiency and self-reliance for adolescents preparing to leave home. A healthy parent-child relationship makes the whole process of emancipation more comfortable for both parents and youth. Its effects are present in a person's adult life," she noted.

Neinda Philosopher Talks About Science, Drinking Water, Helicopters and Stuff

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses drinking water this week, among other things.

Dear editor:

The trouble with scientists is that sometimes some of them don't have enough to do and consequently come up with things that are preposterous, even if they can prove them scientifically.

For example, government scientists have been examining the drinking water in the United States and have announced that in 79 major cities the water is highly questionable, if not possibly dangerous. At the same time, they don't recommend that the people stop drinking it. This is what I call a

scientific fact that goes nowhere. It reminds me of the graduate student who proved, after a nation-wide survey, and got his Ph.D. degree for it, that there are 3 per cent more telephone poles on the left side of highways than the right side, thus proving scientifically that if you have to swerve to miss an on-coming car, your chances of hitting a telephone pole are 3 per cent less if you swerve to the right. Be sure to bear that in mind. Unless you're driving on a stretch of highway where all the poles are on the right side. In fact, come to think of it, the safest way would be to check all the telephone poles before you start out on a trip. There must be some bureau in Washington, or will be when the government hears of this

need, that'll check this for you by helicopter. If you ask where we're going to get that many helicopters, I figure the South Vietnamese will return all those thousands we gave them and which they never did figure out any use for. (I can hear President Thieu saying now, "You double-crossed us. You gave us all those helicopters and airplanes but didn't keep any Americans over here to fly them for us.")

How'd I get off on all this when I started out talking about scientists and drinking water? There must be a connection there somewhere but I can't put my finger on it right now. Maybe it was to tell you again about a man I know who had his water well tested, a well he'd been drinking out of satisfactorily for 30 years. The Health Department scientifically tested the water and reported it was "Contaminated, unfit for human consumption."

"That sure taught me a lesson," the man said, gulping down a glass of his water to calm his nerves. "I'll never have that well tested again."

Yours faithfully,
J. A.

Kayla Mehaffey, daughter of Mr. and Mrs. H. L. Mehaffey, was elected president of the Double Mountain District of the Future Farmers of America at their annual meeting held in Hobbs Tuesday.

Kayla is the first girl to be elected to district office in the Double Mountain District, according to Milburn Wink, local advisor.

She was one of eight candidates seeking the post. The district is composed of 15 area schools.

Guy Turner, Hamlin freshman Vocational Agriculture student, was named Star Green Hand by the district and will represent Double Mountain at the Area meeting to be held at San Angelo, May 9-10.

Subcommittee Gets Bill On Jones County Court

House Subcommittee, chaired by Rep. W. S. (Bill) Healy of Paducah, is studying House Bill 1948 which would create a Jones County District Court.

The Bill, sponsored by State Rep. Elmer Martin, was handed to subcommittee by Judicial Affairs Committee Chairman Tim Von Dohlen of Goliad after a full committee hearing last week in Austin.

Serving with Chairman Healy on the subcommittee are Reps. Gene Jones of Houston, Bill Clark of Tyler, Perry A. Tanner Jr. of Livingston, and Lynn Nabors of Brownwood.

A delegation from Anson, Hamlin and Stamford attended the meeting of the Judicial Affairs Committee to urge the passage of the court proposal.

Speaking for the delegation was County Judge Leon Thurman, Attorney Ray Hollabaugh

of Stamford and Attorney Jack Willingham of Hamlin.

Also in the Jones County group was W. T. Johnson, president of Farmers and

Rummage Sale Cuts Prices

Mrs. C. L. Howard, chairman of the Hamlin High School Stage Band rummage sale, has announced that prices are slashed for the sale this week.

Woolen materials for quilts and rugs, "brand new" sports clothes and a color television set are among the items for sale.

The stage band fund for the European tour has reached \$26,000. The goal is \$30,000 for the 22-member band to participate in a 16-day tour of Europe with International Jazz Tours, Inc.

Merchants National Bank and president of the Hamlin School Board; John Watts, Hamlin Attorney; County Attorney Bob Lindsey of Anson; Dolloris Dean of Anson; Stamford Chamber of Commerce Manager Bill Koonce; Sam Baize of Stamford and John Scarborough of Hamlin.

House Bill 1948 would remove Jones County from the 104th District Court, which is dominated by Abilene, and establish a new 241st District Court composed solely of Jones County.

The bill proposes to give the new court jurisdiction in eminent domain cases plus the original and appellate jurisdiction in both civil and criminal matters previously placed in the County Court. Remaining with the County Court would be the general jurisdiction of probate matters.

Track Team Misses Out At Regional

The Piper track team could manage only 16 points in the Class AA Regional meet held Friday and Saturday in Odessa. The two-time state champion team scored two fourth places and one fifth in the meet.

Running without the talented Johnny Jones, who had to drop out of the District meet because of a leg injury, the Piper sprint relay team of Mac Lee, Robert Phariss, Oscar Marshall and Delbert Thompson took fourth place with a time of 43.7.

The Piper mile relay team

placed fifth with a time of 3:27.2. Running on the team were Thompson, Luke Reynolds, Steve Evans and Marshall.

Phariss placed fourth in the pole vault with a 13'0".

For the first time in four years the Pipers failed to qualify an individual or a team to the state meet.

Thompson, Marshall and Paul Reynolds qualified for the Regional meet in individual events but failed to make the finals. Thompson qualified in the 440, Marshall in the 100 and Reynolds in the high hurdles.

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Kenneth Hertel, manager of Carlton Implement Company, passes along the following information to those of you with 1975 autos or pickups that might be driving in dry pastures or freshly combined fields this summer.

The following quote from the Doane's Agricultural Report:

"If you have a 1975 auto or pickup equipped with a catalytic converter, you should be careful this summer when operating in dry pastures or freshly combined fields. The reason — these converters attain high temperatures, especially if the engine is under load.

"Gulf Oil Corporation tested two production model cars with 351 and 400 cubic inch catalytic converter equipped engines. Converter surface temperatures as high as 990 degrees were reached under the most severe test conditions — a hill climb at full throttle. At that temperature the engineers felt contact could ignite dry grass, agricultural dusts and other flammable substances. Converter surface reached temperatures as high as 660 degrees under normal operating conditions. While perhaps not high enough to ignite grass or weeds, there could be some fire danger in a stubble field."

Dalton Wood, publisher of The Slaton Slatonite, has come up with a new calendar that might better fit the needs of modern living.

First off, he would do away with all this confusion about some months being 30 days, some 31 and one being whacked off at 28. All months under his plan would be exactly four weeks, but there would be just 11 months and each week should be eight days. (Right here we have a problem because I would prefer a shorter week but maybe we could work this into his plan later.)

His eight day week would be set up thusly: Sunday, Twoday, Threeday, Meeting Day, Fourday,

Local Police Arrest Three Runaways

Three juveniles from Dallas were arrested by Hamlin Police Wednesday for burglary and auto theft, according to Police Chief Ed Wheat.

The runaways, two boys and a girl, were arrested after the home of C. M. Houghton was broken into here. A rifle, radio and other items were reported taken from the home and recovered, police said. Citizens in the neighborhood reported to police seeing the youths at the Houghton home.

Police also recovered a car that was stolen in Dallas. Police said the three were suspected of burglary in Weatherford and two thefts and two hit-and-run accidents in Abilene.

Dallas authorities picked up the three youths Friday.

Agent Warns of Danger Of Weed Control In Wheat

Spraying wheat with 2-4D for weed control when the wheat is in the boot or soft dough stage may result in considerable yield reductions says Jones County Extension Agent Kirby Clayton. Weed control with 2-4D should be done when wheat is tillering and before boot stage or else farmers should wait until after the grain has hardened in the shuck.

If weeds are real bad now and farmers are undecided which would result in greatest loss spraying for

weeds or loss from the weeds themselves — then the regular recommended rate of 1/2 lb. of 2-4D per acre might be reduced to 1-3 lb. per acre and result in less wheat damage and still kill most of the weeds.

The amine form of 2-4D should be used since there is less drift to adjoining crops such as gardens and valuable shade trees.

For further information on weed control in wheat consult your County Agent.

enrollment. It is hoped that each parent will read this letter carefully and bring with them on May 6 the records needed to complete their child's enrollment, as no child can enter a classroom on the first day of school without complete records.

For complete records, a child must have a state birth certificate, (a hospital or baptismal certificate cannot be used), the three-series shots for diphtheria-whooping cough-tetanus, the three-dose series for polio, one Rubella (measles), and one Rubella (three-day measles) and a social security number.

Pre-school day activities will include "Old McDonald," a program put on by the kindergarten music class under the direction of Miss Reba Jackson, school music teacher.

The Parent-Teacher Association members will assist the school personnel with registration and help the teachers in the class rooms.

Coach Merket Takes Jim Ned Post

Russell Merket, an assistant coach here who has helped guide the Pipers to three straight district football championships, has been named head football coach at Jim Ned High School.

Merket replaces Larry Aldridge, who recently accepted a similar position at Abernathy after guiding Jim Ned to a 13-1 record last fall. Merket assumes the top duties at a school that reached the state's Class A semifinals last fall.

Merket came to Hamlin with David Bonds in the summer of 1972 and since then the Pipers have ruled District 6-AA.

He will assume his new position shortly after the spring semester ends in May. He plans to attend summer school this summer and the family will move in July.

2 Charged In Burglary

Two Sweetwater men have been charged with the April 16 burglary of C. L. Howard Drug Store, according to Police Chief Ed Wheat. A number of drugs were reportedly stolen.

Named in the complaints filed before Justice of the Peace John Barnett were Robert Lee Anz Jr., 20 and Edward Ornelas, 18, both of Sweetwater. They were arrested in Sweetwater Friday.

Chief Wheat said Monday that more than a thousand pills (barbiturates and amphetamine capsules) were recovered in the old KXOX Radio station during his investigation.

Working with Chief Gerald Byrd of Sweetwater, Chief Wheat said Anz was being held in Sweetwater without bond. He and his wife are reportedly being held for attempted robbery on a Roscoe drug store and his assault on a police officer in Roscoe as well as Sweetwater burglaries.

Entrance to the local drug store was gained through a side door after the glass was knocked out, the Chief said. He reported that Ornelas was driver of the car. Ornelas was released on \$25,000 bond.

CAPITAL HIGHLIGHTS—

Utility Bill Draws Stiff Criticism

AUSTIN—A utilities regulatory bill finally surfaced in the Senate but immediately ran into stiff criticism after early indications it might pass promptly.

The bill (SB 42) remained on high center while sponsors tried to satisfy complaints with amendments.

A Texas Coalition for Utility Regulation spokesman termed the Senate bill "a monopoly's dream and a consumer's nightmare."

Some charged it would mean an automatic rate increase for most utilities because of provisions of the rating formula. Lt. Gov. Bill Hobby termed this concern a "misapprehension."

The bill would set up a three-member appointed Public Utility Commission with jurisdiction over intrastate telephone rates.

Cities would retain jurisdiction over electric and gas rates. The Utilities Commission would have jurisdiction over electric rates outside city limits, while the Railroad Commission would have jurisdiction over gas rates outside municipal boundaries.

Appeals from electric rate decisions by cities would go to the Utilities Commission. Appeals in gas rate cases would go to the Railroad Commission.

SPEED BILL KILLED
The Senate sent the so-called "no-pain" speed bill to a painful end.

Senators voted down 10-19 the House - passed measure which sought to limit fines for speeding violations under 70 mph to \$25 (including court costs). The original bill also would have prevented 55-70 mph speeding violations from being entered in drivers' records for insurance premium enhancement and license suspension purposes.

The legislature earlier extended the present 55 mph speed limit to conform with federal energy - saving requirements. Enforcement apparently will be "monitored" by the federal government.

SUPERINTENDENTS AXED

Thirty-nine county school superintendents would receive no more state aid under a bill passed by the Senate and returned to the House.

The measure (HB 226) would take away state sup-

port for superintendents in Jasper, Newton, Sabine, Anderson, Atascosa, Austin, Bexar, Brazos, Burleson, Camp, Crosby, Delta, Donley, Eastland, Gonzales, Gregg, Hardin, Harrison, Hunt, Jack, Jones, Karnes, LaSalle, Leon, Liberty, Medina, Orange, Red River, Robertson, Rusk, San Augustine, San Jacinto, Starr, Tarrant, Tyler, Upshur, Walker, Waller and Washington Counties.

COURTS SPEAK
Third Court of Civil Appeals held a lawsuit claiming Secretary of State Mark White Jr. helped dissolve a corporation in an improper manner can be tried in Travis County.

A Nueces County man should be released from custody for contempt, since he had a right not to answer a question put to him at a deposition taking, the Texas Supreme Court held.

A Dallas County black won a new trial on rape charges. The Court of Criminal Appeals reversed the case, on grounds the trial judge would not allow the defendant's attorneys to question prospective jurors about racial prejudice.

AG OPINIONS
Alien children are entitled to attend public schools in their home district, regard-

less of whether they are legally or illegally within the U.S., Atty. Gen. John Hill held.

In other recent opinions, Hill held:

There is no difference in rights reinstated by a pardon or a restoration to citizenship. But a restoration to citizenship might not satisfy requirement that a pardon and a proof of innocence are necessary for an award of compensation to a wrongfully-convicted person.

The federal election campaign act amendments supercede Texas Election Code expense Texas reporting requirements for candidates for federal office.

Preliminary and tentative suggestions in a school board committee report are expected from disclosure under the Open Records Act, as are charges against identifiable

individuals.

Winners of the Governor's 1974 Industrial Expansion Awards were named by Texas Industrial Commission for civic and economic contributions to their communities.

The award winners will be honored in ceremonies during May. Fourteen other companies were selected for special citation.

Camping families don't have the easy times of it today, as we did when we were children of the Great Depression, trying to grow old enough to spell words like Establishment and Adult so we could take a better stand against them. You can't buck something you can't spell.

Today the camper tries to erect the family tent by inserting pole B into slot Z, pulling on line A, and the whole thing tumbles down around his red ears. Back then we just rolled up in a blanket, put our head on a boot and went to sleep.

Today's camping family has two tons of equipment plus cookers, smokers, grills, roasters, charcoal and enough fuel to blow up a block of New York City if the can springs a leak. During the GD we built a small fire we could get warm and see by, turn the starboard side to dry clothes, and lots of coals to cook a crappie on a flat board, or a squirrel on a green limb. Coffee was made in a bucket, with water from the river, and a green stick on top to keep it from boiling over.

Those who take Mama and the kids to a lake today sit on their folding chairs at their folding table and might look out across the lake on a weekend if it weren't for the family from Baton Rouge blocking the view and reaching over to borrow your salt shaker. In earlier days we'd stay five days and nights on the river (because any less time wasn't worth it), and never see anything alive except the fish, the rabbits, a stray deer now and then, but when we looked at the big cottonwood and the fox squirrels eating buds, and the rocks drippy with cold water, and the soft, rich humus earth trying to surround the old log where the mushrooms grew, we'd see a lot of God in the air, and we didn't see people til we got back to town.

For camp dinner now Mama is undecided between the pork chops, the frozen ocean perch or the little sirloins from the supermarket. Back 40 years we had two choices in our meat; we either ate it or went hungry.

We didn't need a lot of money because you couldn't buy good health anyway, but at least with what little we had we could afford to get sick, and the average person could go to the doctor. If there was those who couldn't, then the doctor would come to them.

Don't misunderstand. What we have in our state today is the best the agencies and the outdoors can offer. Our 4 million people have swelled to 12 million. Space is

precious, but some of the space makes me suffer for the occupants. Especially the noise pollution. Camps today can't seem to get along without the transistor blaring some ugly tune by the Five Disasters but we had music of a different sort. Mocking birds waking the day, frogs yelling at the night, the coyote over the hill, the fussy squirrel barking at his friends, and windsongs thru the tree.

NEWS AND VIEWS . . .

And What Have You

— Continued from page One

Fiveday, Sixday and Saturday. He thinks this would be a nice eight-day week, renaming all except Sunday and Saturday, which he likes too well to do away with. It does away with Monday, which is useless, and throws in that extra day for meetings. It would be unlawful to have any kind of meeting involving anything other than recreational activities on any day except Meeting Day. "Those of us who look gloomily at our weekly appointment list and discover every night is taken up for the next two weeks have long realized the need for a day every week to just have meetings," Wood writes.

Nobody would work that day; the whole day would be taken up by meetings, and no meeting would be permitted to go longer than an hour and a half.

The months under his plan would be Oneuary, Twouary, and so on, and 11 of them would mean 352 days per year. Then there would be a 13-day Nothing Period in which nobody would do anything (already we have people all around us training for this time). This would make the calendar come out right at 365 days.

He says we could possibly have the New Year holiday at this time, along with all the football bowl games. We could even have a new one, call the Nothing Bowl, he says.

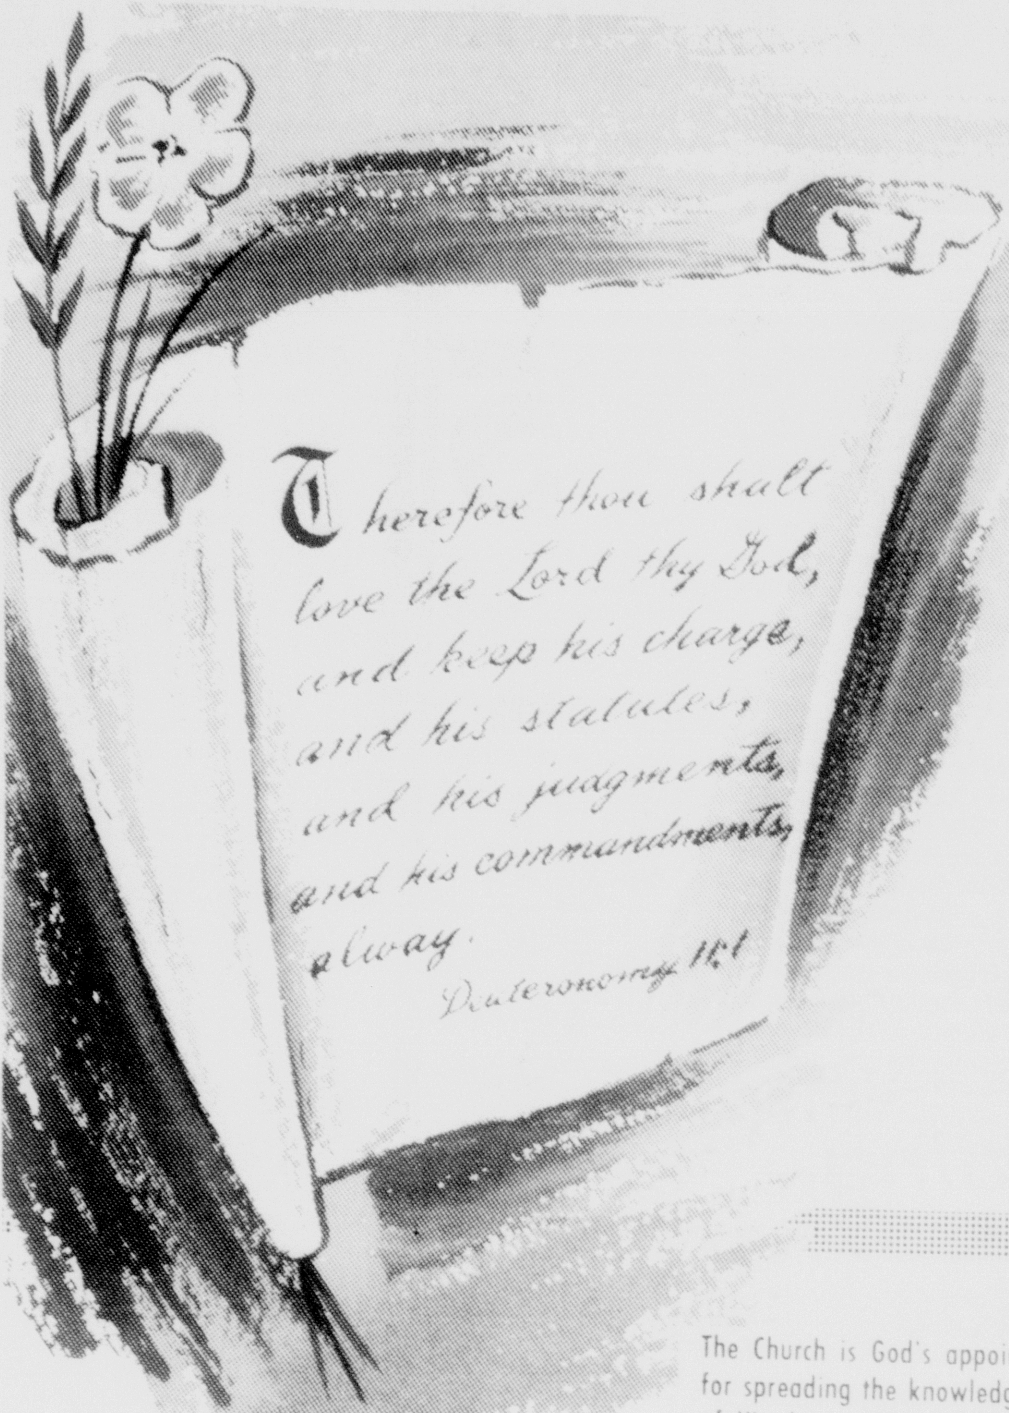

Political activity also could be confined to the Nothing Period, and any mention of politics at any other time during the year would be punishable by death or by three hours of listening to Alice Cooper records, according to the choice of the guilty party.

We are a little slow in making a comment on how nice the south edge of town looks now that the old drive-in theatre and the courts have been torn down. The old drive-in had gotten in such bad shape that everyone in town apologized for it. The elimination of the eyesore helps the looks of the whole town in the eyes of passing motorists.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny, the truth which alone will set him free to live as a child of God.

Three Attend Farmers Union Board Meeting

Mr. and Mrs. Gerald Brown and John Scarborough, all of Hamlin, recently attended the regular Spring Board Meeting of Texas Farmers Union in Waco. Gerald Brown is Jones County president and Scarborough is first vice president.

The farm leaders reviewed and approved reports on their business activities and services. They also adopted several resolutions on state and national legislative issues affecting farmers, ranchers and rural people. In a carefully worded resolution that pointed out the

shortcomings in the new federal price support and target price legislation, the farm group urged President Ford to sign the legislation. "Although the proposed changes in the farm program are totally inadequate to meet the needs of agriculture and to assure the consumer

an adequate supply of food and fiber, we recognize that this is the best that we can expect out of this session of Congress, and until a comprehensive new farm program is passed, we urge President Ford to sign the farm bill. If the President fails to do this, we urge

Congress to override his veto," the Farmers Union Board stated.

The farm organization went on record in support of intrastate price regulation of natural gas, a pipeline gas tax, a strong utilities commission including provisions for territorial integrity to rural electric cooperatives, regulation of corporation farming, a state indemnity

payment for brucellosis losses and lower ad valorem taxes on agricultural land. The farm leaders expressed their disagreement with the Governor's school tax program, because "it places an undue burden of the school tax load on the farmer and rancher."

The Farmers Union Board postponed action on several federal and state issues. The

county Farmers Union presidents agreed to poll their members to determine whether or not there was local support for a national check-off program for the research and promotion of beef. The question of support for the new state constitution was also tabled pending the determination of grass-roots support.

All-Weather 78

Goodyear's new All-Weather 78 is built with polyester cord that's first tempered in an exclusive Goodyear process to set the cord at optimum strength and resilience. The wide 78-series tread is "reverse molded," a technique borrowed from race tire production. In reverse molding, the contour of the tread surface is slightly concave as it

comes from the mold, so that when the tire is inflated, the tread makes full flat contact with the road. And the rib-type tread design is well grooved, with plenty of traction edges to provide decisive grip. In every detail, this new All-Weather 78 gives you honest quality at a price that's in step with the time.

The desire and outright struggle for independence is a natural consequence of youth, according to Nacy Wilburn, Jones County Extension Agent.

"This quest for independence usually peaks during high school years. The adolescent is trying to be free from adult dominance and take what he thinks is his rightful and logical place in society," she explained.

Parental control over an adolescent is the greatest block in the normal course of leaving home.

When youth acquire the ability to take their place as mature individuals in the economic and social world, they are ready to be free from parental control.

"Parents play a vital role in a youth's preparation for adulthood. In early childhood, a youth must be dependent upon parents—a child is unable to manage his affairs socially, emotionally, economically or intelligently."

When a youth develops successfully in these four areas, parents must be prepared to let the child go. This "letting go" isn't easy

because it may make some parents feel a loss in importance, Mrs. Wilburn said.

Neinda Philosopher Talks About Science, Drinking Water, Helicopters and Stuff

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One discusses drinking water this week, among other things.

Dear editor:

The trouble with scientists is that sometimes some of them don't have enough to do and consequently come up with things that are preposterous, even if they can prove them scientifically.

For example, government scientists have been examining the drinking water in the United States and have announced that in 79 major cities the water is highly questionable, if not possibly dangerous. At the same time, they don't recommend that the people stop drinking it. This is what I call a

scientific fact that goes nowhere. It reminds me of the graduate student who proved, after a nation-wide survey, and got his Ph.D degree for it, that there are 3 per cent more telephone poles on the left side of highways than the right side, thus proving scientifically that if you have to swerve to miss an on-coming car, your chances of hitting a telephone pole are 3 per cent less if you swerve to the right. Be sure to bear that in mind. Unless you're driving on a stretch of highway where all the poles are on the right side. In fact, come to think of it, the safest way would be to check all the telephone poles before you start out on a trip. There must be some bureau in Washington, or will be when the government hears of this

need, that'll check this for you by helicopter. If you ask where we're going to get that many helicopters, I figure the South Vietnamese will return all those thousands we gave them and which they never did figure out any use for. (I can hear President Thieu saying now, "You double-crossed us. You gave us all those helicopters and airplanes but didn't keep any Americans over here to fly them for us.")

How'd I get off on all this when I started out talking about scientists and drinking water? There must be a connection there somewhere but I can't put my finger on it right now. Maybe it was to tell you again about a man I know who had his water well tested, a well he'd been drinking out of satisfactorily for 30 years. The Health Department scientifically tested the water and reported it was "Contaminated, un-fit for human consumption."

"That sure taught me a lesson," the man said, gulping down a glass of his water to calm his nerves. "I'll never have that well tested again."

Yours faithfully,
J. A.
